

| Take a walk along the Rennie's Mill trail and see the botanical beauty hiding out in the heart of our city. From native plants to European invaders, plants can tell a story of how we make our mark on the urban landscape. Diane Pelley works for Ducks Unlimited as a conservation specialist and has special interest in wetlands and native plant species of our province. The linear walk will start from the Riverdale Tennis Club and walk up the trail to Elizabeth Ave. Bring your binoculars and wear sturdy footwear for this ~2 km walk (return). |
